MORE ABOUT
TOWNSEND PLAN

From my contact with Townsend followers I have gained no other impression than that they are human beings like myself in nearly all respects with the exception that they are crusading in a cause for the security of mankind. In its declining years, surely that would not be a reason for quarreling with them. It is a high purpose which animates them and one which ultimately will see fulfillment—if not at \$200 a month, then at an adequate sum that will provide insurance and safety during the declining years of existence and not the forlornly pitiable which the national security act has thrown at them as a sop.

DISGUSTING FACTS

I had occasion not long ago to voice my opinions regarding the so-called Congressional investigation of the movement, for which \$50,000 was appropriated. Personally I do not like the methods employed by the committee, and additional developments have caused my disgust to increase. I care not who differs with me in opinion, but I like people to play square, come out into the open and tell their real objects and purposes and not camouflage, no matter what the proposition may be. Congress has been stupidly and wilfully dishonest in its alleged probe of the Townsend plan. It is not a probe of the plan at all, and not even an attempt to give it that color—it is nothing more or less than an effort to cast discredit upon its leaders, for the sake of political advantage, hoping in this way to divert attention from those whose political futures are in jeopardy. And the methods employed are both dirty and despicable and merit the condemnation of every decent citizen.

MORE "PROBING" MONEY

I am impelled to write this second article on the subject by reason of seeing a news dispatch to the effect that \$75,000 more had just been appropriated by the lower house of

Johnston Gets
Long Sentence
In State Pen

MARTINEZ, April 22.—Within 20 hours after he escaped from the county hospital, where he was working as a trustee, James V. Johnston, 34, was on his way to Folsom prison to serve a term of 10 years.

Superior Judge A. F. Bray sentenced Johnston this morning on "terms" for jail breaking and carrying a weapon, with the provision that they run concurrently. Sheriff John A. Miller and undersheriff Al Aljetti started for Folsom immediately with the prisoner.

Johnston who was sentenced from Richmond on a drunken driving charge in 1934, stole an automobile owned by Oscar Olson, county hospital superintendent, wrecked the machine in a wild dash down the Franklin canyon highway and was picked up in Richmond by the Richmond police after he attempted to steal a machine from Mrs. W. F. Radick, 2242 Esmond avenue and Mrs. Louise Hand, 3264 Garvin avenue.

Richmond, California.

Dear Mr. Milnes:
Richmond Townsend Club No. 1 wishes to thank you for your fair and unbiased opinion on the Townsend investigation. If all our newspaper would do likewise instead of distorting facts what a wonderful thing this "freedom of the press" would be! All the Townsends and of anyone is fair play. Thank you again.

Sincerely,

ENTOMBED MEN ARE RESCUED TWO ARK SLAYERS ARE FOUND GUILTY MOB ACTION FEARED

Death Was Cheated

HERE IS THE Moose River gold mine in Nova Scotia where two men were entombed for 242 hours. Last night rescuers brought both men and the body of a companion to the surface after days of rescue efforts.

INVASION OF ORIENTALS IS CHARGED

A plea to halt what he termed "an Oriental invasion" was sounded last night by Assemblyman Charles Wagner, president of the Oakland Butchers Union before a mass meeting of approximately 200 Richmond citizens at Brotherhood hall.

The meeting was sponsored by the Contra Costa Trades and Labor Council and the speaker was introduced by J. L. Von Tello, president of the Council.

FILMS ARE SHOWN

Wagner showed motion pictures, featuring films he took at the opening of an Oriental market on Broadway street and Macdonald avenue about three weeks ago. The amateur photographer caught numerous "shots" of Richmond residents leaving the market loaded down with parcels.

Wagner asked members of the audience to study the pictures and if they recognized any one to inform him. Letters, he said, would be sent to these people asking them not to trade with Orientals.

LECTURE IS GIVEN

Prior to the motion pictures and slides, Wagner delivered an interesting lecture on the threat of the Oriental to American workmen.

The speaker declared that union (Continued on Page 8)

MOOSE RIVER, N. S. (Thursday) April 23.—UP—The bitter ten-day underground battle of man against nature for the lives of Dr. D. E. Robertson and C. Alfred Scadding ended in victory today when the shattered explorers of the old Moose River gold mine were rescued.

The men were carried to the surface after being entombed by a cave-in since Easter Sunday—an underground imprisonment of 242 hours.

TAKEN TO HOSPITAL

They were placed on stretchers and rushed to an emergency hospital. Soldiers went to the shaft to bring out the body of Herman R. Magill who died in the underground prison last Sunday.

The large crowd at the pit head which had waited anxiously since last Sunday for rescue of the men yelled hysterically when Dr. Robertson, co-owner of the mine, was carried out of the rescue shaft at 12:44 A. M. AST.

BUSSEY IS ACQUITTED BY JURORS

MARTINEZ, April 22.—Guilty of murder in the first degree with a recommendation of mercy were the verdicts rendered by a jury tonight against Lewis Sly, 38, and Fale Sutton, 39, two of the three men accused of the brutal slaying of Allen S. Knight, 85-year-old Antioch ark dweller. The third defendant, Leroy Bussey, 37, was acquitted.

MOB ACTION FEARED

Feeling aroused in Antioch over the verdict led to the exercise of extra precautions at the sheriff's office tonight, it being the intention, it was said to put on additional deputies to guard against mob action.

Sly and Sutton will be taken to San Quentin prison early this morning by Sheriff Miller and a heavy guard, and the two will remain there until next Monday, the day set for passing sentence by Judge A. F. Bray. Judgment will be pronounced that afternoon at 1:30 o'clock.

QUICK VERDICT

One ballot each on the guilt or innocence of Sly and Sutton was all that was necessary on the part of the jury to reach a determination.

He asserted "mysterious influences" caused his plight. Daley refused to make an effort to raise bail of \$500 in cash or (Continued on Page 8)

Vets Gather At Memorial Hall Banquet

Comradeship in its apotheosis was exemplified at the annual dinner last evening of the Memorial hall board of directors composed of members of the American Legion, Veterans of Foreign Wars and Spanish War Veterans, held at Memorial hall.

While the banquet itself was a "joy and delight," accentuated by rhythmic interludes by the Lions orchestra, the occasion was further inspired by the noble and stirring patriotic sentiments expressed by various speakers, chief among whom was Philip G. Solon, an Oakland attorney, and a prominent veteran of the Bay district.

IMBACH PRESIDES

Presiding with grace and unctuous comments in his introduction of the various speakers was George F. Imbach, a high mogul in the omnibus organization of veterans, and a past master in the art of amalgamating a social rendezvous. There were various men and some fascinating ladies who contributed intellectually and vocally to the enjoyable program that was provided for entertainment. Their individual efforts met with sparkling, that is to say, vigorous applause and vociferous outbursts of appreciative comments, it remained for Mr. Solon to add the climatic touch to the occasion in his invigorating address, flaying Communism in which he said:

Galileo Club's Anniversary To Be Feted Here

Final preparations for an anniversary celebration to be held Sunday were made last evening when the Richmond Galileo Club held its meeting under the direction of P. Valberg.

The affair will be featured by games at the club's recreation grounds in the afternoon and in the evening a banquet will be served at Brotherhood hall at 6 o'clock.

A record turnout for the affair is anticipated.

Entertainment and refreshments were enjoyed by the club last evening.

Scout Camporee Will Be Held Here Saturday

Boy Scout Executive D. F. Seaman returned last night from a meeting held in Sacramento to discuss plans for the annual Boy Scout camporee for this area. No decision has been made as to where the camp will be held.

On Saturday and Sunday the district camporee will be held here in Richmond at Nichol park with approximately 100 or more Scouts in attendance.

The camp will open at 11 o'clock Saturday morning and will be concluded at 8:30 Sunday morning.

At that time the Scouts will prepare for the big camporee to be held in Crockett later in the month.

Poison Death Fresno Student Baffles Police

FRESNO, April 23.—UP—School-room murder possibilities were checked tonight as police found themselves unable to explain the poisoning death of husky Olin Everts, 14-year-old football player and honor student.

Everts, an outstanding youth with a brilliant record at Fresno high school, died in convulsions six hours after he became violently ill at his desk Tuesday morning.

Suicide and accidental death possibilities were eliminated almost entirely as investigators checked the strange case.

Almost two hours elapsed between the time Olin left his home for school and first became violently ill.

Doctors pointed out that the poison ordinarily causes convulsions within 15 minutes after being taken. Police believed, therefore, that Olin must have obtained the poison after his arrival at the school.

Kiwanis Told Of European Journey

Warren Cunningham, Martinez attorney, told members of the Richmond Club yesterday of his experiences in Europe.

Charles Reynolds entertained with vocal selections. C. E. Moore was chairman of the day and Kenneth H. Wells presided.

Richmond Man Is Injured In Auto Accident

Manuel Pava, of 1350 North Thirteenth street, sustained severe cuts and bruises last night when he lost control of his machine and it crashed into a power pole on San Pablo avenue near Church street in San Pablo.

The injured man was taken to the hospital in a Wilson and Kratzer ambulance.

According to police reports, Pava apparently lost control of his machine when it skidded on the wet pavement.

The machine was almost completely demolished.

Mrs. B. L. Brown, Former Local Matron Called

Funeral services are pending at the Wilson and Kratzer chapel for the late Mrs. Bessie E. Brown, 512 Sixty-sixth avenue, Oakland, former Richmond resident, who died last night at a local hospital.

Deceased was the widow of the late T. O. Brown, former local sanitary plant employee.

She was 55 years of age and was a native of Nebraska.

Surviving are two daughters, Mrs. Leola Saylor, of El Cerrito and Mrs. Mildred Essich of Oakland; a son, Cecil of Oakland; two sisters, Mrs. Nina Weaver and Mrs. Muriel Fletcher of Nebraska and two brothers, Ivan Hoy and H. E. Hoy, both of Chicago.

She also leaves three grandchildren.

School Board To Hold Special Meeting Today

A special meeting of the grammar school board of trustees has been called for 8 o'clock this morning at the offices of Superintendent of Schools Walter T. Helms at the Lincoln school.

At this meeting the board will make some decision on the care of handicapped children.

At Tuesday's meeting of the board Mrs. Earl McLean appeared and asked that more facilities for handicapped children be provided by the school board. No decision was taken in the matter at that time as board member Homer Patterson, was unavoidably absent, being engaged in the trial of a murder case at Martinez.

It is expected that the problem will be settled at this morning's meeting.

Special Buses For High Concert

The East Bay Railway will operate a special bus service between Tenth street and Richmond Union high school on Wednesday evening, April 23, for those people who wish to attend the public schools concert. There will be two round trips before the concert beginning at 7 p. m. and two round trips after the concert. The last bus will leave the high school at 10:00 p. m.

No transfer will be accepted on this special bus.

Semi-Final Of Elimination To Be Run Tonight

The shortest field in Pacific Coast greyhound racing this year, a five-day match, will take place tonight at El Cerrito track. It is the semi-final of the Great East Bay Eliminations, the most serious heat yet staged and probably the hardest to dope out. Buddy Mac, that sensational son of Alton-Tony Doodle who has been only a week short of winning twice, may get up. Or Alder Guich, the famed Yellowstone dog, could prove his mettle. Brown Jug, by My Laddie, has an enviable record in this series. Jew Undertaker, winner of Tuesday's race, is the most consistent money dog in the running and Gallard always goes hot when the chips are down.

Sailor's Sweetheart ran away with the double option closer last night, better than the best over Stearns Fitter and Club Traffic. It was the black greyhound's third win in four out, paid \$12.50.

No. 10 dogs clicked consistently all evening, much to the delight of dopsters who were following the outside holes. No. 10 dogs to win were Ku Koo \$11.20; Danney Pierce \$14.20; Red Mist \$12.40; with several in the money.

Shawnee Belle defeated Andrew's Pride, the good pup, in a driving finish of the Photo State last night. Mrs. Duncanson's winner just last night, the P. O. Olmo pup, closing a big gap to appear fastest at wire. The margin of victory was very slight. Globe Trotter was up early, but faded out at three-sixteenth mile.

OAKLAND NINE WINS OVER S. F. IN LONG GAME

BY UNITED PRESS

The Mission Reds evened their series with Portland Wednesday when Bill Posedel, Beaver hurler, weakened in the final inning. Missions won 6 to 4.

Oakland trimmed San Francisco 3 to 1 in a ten inning struggle to open their series. The teams were rained out Tuesday night. Jimmy Tobin for the Oaks relieved lanky Hank MacDonald in the second inning to engage in a pitching duel with Kenny Sheehan.

The Seals picked up their lone score when Tony Borja was walked by Tobin, stole second and came home on Monzo's double in the second. Bolyard doubled to right, followed by Hartle's double to left scoring Bolyard which gave the Oaks the tying run in the seventh. They won the game when Glynn doubled in the tenth, scoring Deverinos, and Uhalt singled to chase Glynn across the plate. Lefty O'Doul got a double when he came in as a pinch hitter for the Seals in their half of the inning, but Tobin retired the side.

The Sacramento team made it two straight over the last place Angels, for an easy 8 to 3 victory.

In a night game San Diego defeated Seattle, 12 to 5.

Luck Is Gone, Prisoner Will Face Execution

SALT LAKE CITY, April 22.—UP—Delbert Green, who has spent almost six of his 28 years of life under death sentence, continued his knitting tonight, seemingly unconscious that his luck, which has saved him from a firing squad four times, has about played out.

Only a miracle, it appeared, could again snatch him from the path of a blast of bullets. The Board of Pardons and Paroles rejected his plea that sentence be commuted to life.

The stoical youth, whose favorite recreation is knitting, either didn't realize it or was indifferent. Green was convicted and sentenced to death May 17, 1930, on conviction of murdering his uncle, James Green, in the isolated farm home of the Green family in rural Davis county. He also was charged with shooting and killing his young wife and her mother but was tried on only one of three charges of first degree murder.

Kidneys Must Clean Out Acids

The only way your body can clean out acids and poisonous wastes from your system is through the kidneys. Kidneys are the body's filters. They filter out of your blood all the poisons, acids, and wastes that are left over after the body has used up the food and oxygen. If the kidneys are not working properly, the acids and wastes build up in the blood and make you feel tired, nervous, and generally unwell. It is important to keep your kidneys in good shape. You can do this by drinking plenty of water, eating a healthy diet, and getting regular exercise.

Waldo Approach Contract Is Let By State Board

SACRAMENTO, April 22.—UP—The State Department of Public Works today awarded contracts for highway construction work in Southern and Northern California, and for building of two units of the Waldo approach to the Golden State bridge.

Morgan Cross, Huntington Park, were awarded a \$3,433 contract for applying liquid asphalt to 12.5 miles of Route 27 in Imperial county. Robert D. Patterson, Santa Barbara, was awarded a contract for surfacing shoulders on State Route 9 between the Coast highway and one mile easterly in Ventura county. The price was \$4,684.

General work on a two-story reinforced concrete ward building at the Camarillo State hospital was awarded Louis A. Gelsler, Huntington Park, for \$192,830.

The contract for grading and surfacing 2.4 miles of the four-lane highway between Waldo Point and the Golden Gate bridge was awarded to the Macco Construction company, Clearwater, for \$770,204.

T. E. Compoly, Inc., San Francisco, was awarded the contract for construction of 3-10 of a mile of concrete lined tunnel, midway between the bridge and Sausalito. The price was \$687,917.

JOSEPH MILLER, manager of the Bank of America, is confined to his home by illness.

Those indicted were: Edward Batholmey, Bensenville, Ill., postmaster; John K. Peiffer, St. Paul; Bryan Bolton, former Chicago gangster; Charles Fitzgerald, Los Angeles; Elmer Farmer, Bensenville, Ill.; Arthur "Doc" Barker, co-leader of the Barker-Karpis gang, and Alvin Karpis, sought as Public Enemy No. 1.

Judge M. M. Joyce set bail for Batholmey and Fitzgerald at \$100,000. They were removed to the Ramsey county jail.

Farmer and Barker are serving sentences for the Edward G. Bremer kidnapping. Bolton is awaiting sentence for the same crime.

POLICE AGAIN REOPEN PROBE IN MYSTERY

WALLA WALLA, Wash., April 22.—UP—The disappearance of J. E. Bassett, Annapolis naval officer, remained a mystery tonight, in spite of intensive questioning of Decato Earl Mayer and his mother, Eleanor Smith, prisoners in the State penitentiary.

Bassett, en route to the Orient, vanished in Seattle in 1928. Later Mayer and his mother were arrested in Oakland, Cal., with his car in their possession. They were convicted of grand larceny, in absence of a body necessary for a murder charge.

The story of Stephen Szekfu, 59-year-old Prosser, Wash., ferry operator, reopened the case. After a silence of nearly eight years, he told friends that he ferried a car resembling Bassett's blue Oakland roadster across the Columbia in 1928, and that he later recognized the passengers as Mayer and his mother. During the passage, Szekfu said, the couple dropped a canvas covered bundle over the side into the water.

Sheriff A. M. Richter of Benton county and Deputy Prosecutor E. S. Henry of King county placed enough credence in Szekfu's story to come to Walla Walla to question Mayer and Mrs. Smith.

The officers told them that Bassett's body had been discovered, but the prisoners were defiant and denied any knowledge of his disappearance.

Mayer said, "You'll never find the body. And if you do, you'll never be able to identify it." He refused to amplify his statement.

Mayer is serving a life sentence as a habitual criminal. His mother is serving a 10-year term for grand larceny.

Benton county authorities planned to drag the river near Hanford, where the supposed bundle was dumped into the water, after the stream recedes; but prospects of recovering it after eight years were regarded as slight.

Vets Gather At Memorial Hall Banquet

(Continued from page 1)
Richmond and Contra Costa county made the best investment that they possibly could have made in erecting this Memorial building, and placing it in the hands of war veterans. Tonight the veterans give an account of their stewardship of this community Shrine of Patriotism.

Complimenting the local veterans on the friendly spirit shown at the banquet where veterans of major organizations meet as friends, Solon said that this was a great credit to the spirit of the community.

DRIVE ON RED:
Referring to the water-front strike and the news articles published saying that the major veterans organizations had started a drive against Communism, Solon said:

"That's nothing new. We started years ago but let us not forget that the American Legion is pledged to strict neutrality in all matters of industrial strife, and the veterans' organizations have no business to say who is right and who is wrong. There may be some Communists in the U. S. A. but let us not condemn a barrel of good apples because one of the apples is rotten."

He paid high compliment to the local Veterans' organizations for the splendid spirit of true Americanism that they had always shown on patriotic occasions and right throughout the year, and significantly added: "It is an approach to Communism when the legislative power is turned over to one man. Your representative who does so is a legislative failure and is worse than a Communist."

Preliminary to the forensic feature of the program were appropriate remarks by Supervisor J. N. Long, George Ebert and Tom Dunleavy, followed by a colorful vocal solo by Mrs. Eliza Gilbreath Calfee who interpreted in a rich dramatic soprano voice, "Sylvia Speaks," and as an encore obliged with the "Serenade from the 'Student Prince'." The vocalist was a picture in black satin with a white silk jacket, red satin slippers and a corsage of crimson carnations. She was sympathetically accompanied on the piano by Emil Esola.

Another enjoyable vocal number was the song, "The Trumpeter" by Ed Hill who was accorded a demonstration of appreciation by the throng of nearly 400 who festooned the festive occasion.

Obviously, the veterans, with their wives, sweethearts and other accessories, had mustered all the ingredients of a genuine Wah-hoo. The repast was prepared and served by the ladies of the American Legion Auxiliary under the direction of Mrs. Pearl Johnson.

Stress Put On Safety Factors In 1936 Autos
Greater stress has been placed on safety in the 1936 motor cars than ever before in the history of the automobile industry, pointed out Harry Curry of the Curry Auto Sales Company, Chrysler-Plymouth dealers here.

"Manufacturers today are more 'safety-conscious' than ever before," stated Curry. "Large sums are continually being spent in research devoted to making the modern automobile safer, to operate on city streets and country highways."

"Chrysler has developed and pioneered many safety features during the past 12 years, many of which are widely accepted throughout the industry today. Among these was the introduction of hydraulic brakes. At the time hydraulic brakes were introduced they were regarded as a revolutionary departure from accepted practice. Today, an increasing number of cars are adopting them."

"Another safety feature pioneered by this manufacturer was the all-steel body. In scores of instances, the ruggedness and strength of this body have saved lives that would have been lost in other types of bodies."

"An important safety feature found in the 1936 Chrysler car is the sway eliminator, which is a major factor in increasing safety on curves. Steering has been perfected to the point where the strength of one finger is often all that is necessary to turn the wheel. These and many other features have brought a new measure of safety to motor car operation."

It was pointed out that in the final analysis, the modern automobile is safe on city streets and country highways only if the driver is governed by his own common sense, self-interest, desire to live and his consideration for the other fellow.

BRITISH MOVE TO SAVE LIFE OF A MACKAY

SAN FRANCISCO, April 22.—UP—Backed by the power and pres- idence of his Majesty King Edward VIII's government, two moves to save the life of Alexander Mackay were made today, as San Quentin prison authorities prepared to hang him Friday.

Helvin Bell, attorney for Mac- kay, and Jos. Klaty, scheduled to die with him, filed a rare legal peti- tion with the State Supreme court asking a writ of coram nobis.

In Sacramento Governor Frank Pinley Morrison received a formal appeal from British Consul Gen- eral Archibald Charlton of San Francisco, asking that the gov- ernor grant a second reprieve to Mac- kay, a British subject.

The governor reprieved the two men for a 90-day period when they originally were scheduled to die February 23. At that time Mackay appealed directly to King Edward VIII to intercede in his behalf, and told London newspapers in a trans- Atlantic telephone interview that he was not guilty of the crime for which he was convicted.

Mackay and Klaty joined two other convicts in a mad prison break in January, 1935. One of the prisoners was killed in the break, one received a life sentence, and Mackay and Klaty were sentenced to die on conviction of kidnapping with robbery and violence. The extreme penalty was imposed under terms of a California "Lindbergh" law.

Under the petition for the writ of coram nobis the court was asked to review its order affirming the judgment against the men.

HERE'S TO YOUR HEALTH

Have you ever had a headache or backache or an ache in your muscles? If so, you were using massage. Massage is a form of treatment that has been known to every nation for centuries. It is a well developed art, but it is well to remember that the value of treatment depends largely upon the skill of the one administering it.

Massage has been called a way to take exercise while resting. The success of massage rests upon the following accomplishments: It increases the general nutrition and circulation of blood. The digestion may be improved, the nerves soothed or stimulated, pain re- lieved, internal congestion lessened and certain swellings or deposits in the tissues may be removed, by the increased circulation of the blood.

Massage removes the fatigue poisons from the muscles. It is singularly useful in toning up the muscles of sluggish intestines, and is invaluable in the cure of long-standing constipation. Massage improves the circulation of both blood and lymph. It may be used with great benefit in cases of prostrated or during long periods of convalescence when the patient is confined in bed. It is of value in promoting the growth of hair, and many hair re- storers owe their success to the massage which accompanies their application.

Massage may be used with dieting for reducing the weight, since deep rubbing will assist in forcing more blood through fatty deposits and absorbing them more readily.

Often one suffering from gas pains may be relieved by abdomi- nal massage which assists in expelling the gas.

Charges are Moderate

It is well to remember that a beautiful mortuary does not mean high prices, as this firm proves. With all the refinements and comforts to be found here, charges are never higher than the smallest incomes can easily af- ford. By including everything in one plainly marked price, we have made it possible for every family to make an appropriate selection without financial hardship.

SHE LOST 20 POUNDS OF FAT

Feel full of pep and possess the slender form you crave—you can! If you listen to gossipers. To take off excess fat go light on fatty meats, butter, cream and use any sweets—eat more fruit and vegetables and take a half teaspoonful of Kruschen's Salt in a glass of hot water every morning to stimulate excess waste.

Mrs. Elma Verile of Havre de Grace, Md., writes: "I took 30 lbs. of my clothes fit me fine now!"

No drastic cathartics—no constipation—but blissful daily bowel action when you take your daily dose of Kruschen.

IT'S SIMPLY INEXCUSABLE

You cannot expect to make friends socially or in business if you have halitosis (bad breath). Since you cannot detect it yourself, the one way of making sure you do not offend is to gargle often with Listerine. It instantly destroys odors, improves mouth hygiene and checks infection. INVASION OF ORIENTALS IS CHARGED

(Continued from page 1)

labor has no intentions of creating racial bitterness but its main purpose is to show that the Oriental, by his lower standard of living, can undersell the white man and drive him from business.

CO-OPERATIVE BASIS

He explained that all Chinese markets and other business establishments are run on a co-operative basis. Each Chinese contributes so much for the start of the business, draws a weekly salary of from \$5 to \$10 and then at the end of the Chinese year the net profits are divided.

Wagner declared that the operators of these markets work all hours and all days, sleep in their shops and eat only rice and pork, cooked in a community kitchen. Their standard of living, he said, is so low that they can even out-sell the chain store.

MARKETS START "INVASION"

Wagner stated that the Oriental first enters a city with a market and this is followed—if the city proves a profitable point—by the National Dollar Stores, a chain operated by Chinese. Wagner charged that the latter stores sell cheap working under conditions that no articles, made by Oriental laborers, white person would tolerate.

The speaker declared that the Oriental is not only crowding out the white butcher but he is also entering other lines of endeavor, including the produce business, selling fruit and valise manufacturing, department stores and even hardware and floor laying.

WHITE MAN LOSING

The speaker cited facts and figures substantiating his statements that while the Oriental is increasing his business, the white man is losing ground.

Wagner declared that another danger to American workmen is the practice of the Woolworth and Kress stores of selling Oriental made products at prices far below that of American made goods. He showed copies of a letter written by a congressman who visited the Orient and told of seeing huge shipments of goods consigned to Woolworth and Kress stores. The Oriental laborer, he said, is duplicating American devised articles. As there is a shortage of ores, the Japanese are buying scrap metal in the United States, are shipping it to Japan where it is melted and

WIFE OVERJOYED

He tried to smile and wanted to stand, but the effort was too much for him. He had to lie down on a stretcher.

Mrs. Robertson rushed to him, crying for joy.

Scadding, who apparently was in the worst physical shape of the two, was brought up at 12:34. He also was placed on a stretcher.

BODY IS REMOVED

Magill's body will be taken to

Halifax where an inquest will be held.

"Thank you, boys," was all Dr. Robertson said as he was placed on the stretcher and carried to the ambulance to be taken to the hospital. Robertson and Scadding were carried out by the rescue workers from the Stellarton mine who have been taking an active part in the heroic digging.

FOUND AFTER 12

Robertson's arm was in a sling. Scadding's feet were infected. Both men were weak from hunger and ill from exposure.

Both had hairy beards. Their clothes were torn, wet and filthy. The druggermen, or tunnelers, broke through the last barrier to the chamber where the pair were crouching at 12:27 A. M.—A. S. T.

The men were on a ledge.

It is then manufactured into goods that are made by starving workmen. These goods are then shipped to the United States to be sold at prices below American products.

PICTURES SHOWN

Motion pictures of Oriental sections of neighboring cities, "still" of interiors of workshops used by Orientals and pictures of crowded hotels, tenements, and hovels where these Orientals live on a few pennies a day, were shown.

Wagner closed his lecture with a plea for every citizen of Richmond to halt the "invasion" of Richmond and Contra Costa county by the Orientals. "Buy only American-made goods, and especially those stamped with the union label," he said.

of the county and to the entire valley section by automobile and truck. The Willow Pass cut-off involves about nine miles of new construction from Willow Pass on the existing road to Muir station on the Franklin highway, shortening the distance between Richmond and Pittsburg by about three miles. This will be part of the proposed new industrial highway which is to be in near Brentwood and pass through the interior of the county, avoiding the bay shore towns which have proved a bar to high speed traffic.

"The Chamber of Commerce will put all its influence behind the program outlined by Scott's committee," said President P. M. Sanford, and we believe his committee should be highly compensated for the intelligent effort they have put into this highway matter."

FAYORS SANTA FE

The executive committee, meeting during the forenoon, adopted a resolution putting the chamber on record in favor of the application of the Santa Fe to operate a bus system in California in conjunction with its railroad. The application is before the railroad commission, and the chamber directors have twice debated whether they would approve the move or remain neutral. The action of the executive committee, which was approved by the board, gave the final solution.

NEW DIRECTOR NAMED

G. Ford T. Douglas, vice-president of the chamber, who resigned as a director because he has been moved to the Berkeley branch of the American Trust company, will be succeeded as director by L. F. Stern, formerly of San Leandro, who takes his place in Richmond as manager of the local branch.

P. R. MILNES

Congress for "Investigation of the Townsend and other plans."

That makes \$125,000 taken out of the public treasury. Perhaps the sum does not seem large to the men in Washington who are juggling with billions like a magician tossing balls in the air, but think how many hungry mouths it would feed.

Not one fact has been adduced to enlighten us whether or not the Townsend plan is feasible, and there is no intention of doing so. All we have received for these many dollars is an attempt to belittle the character of some of the people connected with the movement, and that, too, has been a dismal and abject failure.

BUT THAT'S DIFFERENT

Yet a Congressional committee is now in Los Angeles, where the movement originated, and every day or so some nasty imitations are broadcast of astounding revelations about to be made. These Congressmen are living on the fat of the land, staying in luxurious hotels and drawing \$500 each in mileage from the government for the trip there. Yet the same men think some horrible crime has been committed when a Townsend official stops at a decent hotel and eats a substantial meal. And the money the latter pays out is lost from the public treasury either. Personally I do not think it is any damn business of Congress how the coin contributed by Townsend adherents is spent, but it is some of us how Congress dissipates the funds we contribute out of our pockets for governmental purposes.

JUST GOOD FOLKS

I have failed yet to discover that the Townsend people are trying to tear down the government, bring on war or encourage Fascism or Communism. I have never heard of their loyalty to the government or its institutions being questioned or that they engaged in unlawful conspiracy of any kind. Like you and me they are the kind of folks which form the backbone of this nation, and who obey its laws, worship God, are loyal to their country and have been and are good citizens; who are imbued with an idea and a high ideal, for the betterment of humanity. Perhaps they are wrong but no one yet has adduced proof to that effect to my satisfaction. Even though they are, that does not justify or excuse the mud bath to which Congress is attempting to subject them. We have come to a pretty pass when we elect Congressmen and pay them money to vilify and abuse a large section of our good citizens, both men and women, and again I repeat, it is time to call a halt.

HIGHWAYS TO ADDIS ABABA ARE BLOCKED

stand to keep General Rodolfo Graziani from capturing Farar and Jijiga and thus commanding the Djibouti-Addis Ababa railroad.

ROADS FLOODED

A United Press correspondent at Ghibwasha, at the base of Tanna Durh pass, witnessed the destruction of the D-aye highway.

Diverted streams tonight were cascading over the all-important road. The Ethiopians, dynamited the torrents from their usual channels in hope of bogging Italian camions.

At Ghibwasha 1500 Ethiopians were digging great trenches 12 feet deep along the plateau escarpment to halt mechanized transport and Italian tanks.

MACHINE GUN NESTS

They have erected machine-gun strongpoints at vantage points along Tamar Barrh's edges. Except for airplanes there has been no sight of the enemy from Tamar Barrh. But Ethiopians were concentrating on the Shula Meda plain where the final battle for possession of Addis Ababa was expected to be fought.

In Addis Ababa confusion reigned because of rumors as to the whereabouts of the Italians. Empress Menen traveled out to the radio station at Akaki to broadcast an appeal to the world and especially to France and Great Britain. She asked for immediate action "while yet there is time to assist Ethiopia."

NO SURRENDER

"I will remain in my country and with my people until the end. This is the time of our country's most critical need. We are fighting against tremendous odds but we are still undefeated."

Increasing indications that Addis Ababa is not to be surrendered without a struggle to the death spread further panic through the city.

Excited shouts of "flee to the hills and save yourselves" mingled with the droning of donkeys and the noise of tangled traffic in muddy streets as native families by the hundreds evacuated.
